Joaquin Uriel Martínez, Web Developer

I am a full-stack web developer from Argentina working with Typescript & React.

I've been working in a cardboard factory for the last year where I got to learn about team-work and communication. Currently, I'm performing as a freelancer.

Make it fun, make it flow, make it glow.

Work

Freelancer, Buenos Aires

November 2022 — Present

IT Assistant at Geográfica, Buenos Aires

February 2022 — November 2022

I was responsible for processing production orders, price quotations and inventory management. I also conducted internal projects and worked on website updates.

I was keen on evaluating the company performance through statistics, so I used Microsoft Excel for that purpose.

Education

Software Development, UADE, Buenos Aires

March 2022 — Present

Bachelor, Parish Robertson, Buenos Aires

March 2016 — November 2021
